## PROFESSIONAL EXPERIENCE

*Austin ISD, Hill Elementary, Math Teacher & Campus Innovation Coach (2015 - Present)*

- Fertilized fifth grader's enthusiasm for the magic of mathematics (general education & collaborative setting)
- Applied theories of effective instructional design to develop a host of engaging, relevant & visually appealing curriculum units to support learners of all levels
- Streamlined assessment processes to gather timely, skill-specific data used to tailor instruction to individual learning needs & styles
- Created an open & comfortable classroom culture where students' emotional needs are considered equally important to their academic ones
- Selected to represent Hill Elementary as Campus Innovation Coach (leadership role to support teacher as they embark upon new adventures in effective technology integration)

*Southern Arkansas University, Adjunct Professor (Summer 2015)*

- Instructed two summer intensive courses (Instructional Design & Production) for students pursuing a M.Ed. In Library Media & Information Science
- Created a project-based, hands-on course that allowed students to explore a variety of multi-media tools, with an emphasis on supporting learners as they created an online platform to maximize efficiency in their schools & libraries (100% positive course evaluation feedback)

*Eanes ISD, Valley View Elementary, Teacher & Instructional Specialist (2004 - 2015)*

- Infused conceptual understanding with a dose of creativity & imagination as a classroom teacher for six years (Grade 5 Math, Advanced Math Grades 6 & 7)
- Provided small-group math intervention (K - 5) for struggling learners and revived a personal mission to cure students of an all-too-common affliction of finding math boring, intimidating or downright frightening
- Created an online math program for students to practice problem-solving skills in context of real-life summer math adventures starring their favorite teachers (optional program, 74% grade-level participation for the entire 12-week course)
- Invented a novel way to assess students by wrapping math mysteries in a choose-your-own adventure narrative of a fictitious school detective named Pierre
- Provided timely, organized assessment data following the 'Pierre sessions' to classroom teachers to help them better target their math intervention

*Helping Hand Home, Teacher (2012 - 2013)*

- Conducted a weekly small group "book club" to remediate literacy skills (fluency & comprehension) for foster children (Grades 3 - 6) living in a therapeutic care facility
- Created & taught an engaging project-based course program for 8 students (Grades 4 - 5) during summer session of Discovery School--an enrichment program offered for residential students to help reduce summer attrition and inspire curiosity

*Texas Association of School Boards, Project Coordinator (1997 - 2003)*

- Wrote, edited & updated units for Family Frameworks (statewide parent education curriculum) to be implemented by school districts across the state
- Provided current research, developed lesson plans & compiled resource listings for specific parenting issues
- Designed content for all PLN marketing materials including print brochures, newsletters, and correspondence to members
- Authored all content for PLN's website

## **INTERESTS & HOBBIES**

- Proficient in conversational Spanish
- Run a digital store for math lessons on TeachersPayTeachers.com
- High interest in graphic & web design for personal projects
